The “EINS AP-8R” is ideal for simply hopping on and riding off, whether for your commute or spontaneous rides.A new feature is the “Purion 200” Display, which shows all important information at a glance. The Bosch “Active Line Plus” engine provides smooth assistance up to 25 km/h and is powered by a 400 Wh “PowerPack.” The battery is easy to remove and recharge. The 8-speed Shimano “Nexus” hub gear system requires very little maintenance. Thanks to a bright LED Front Light and a Rear Light with brake light function integrated into the Carrier, you’ll stay safe on the road in the evening. The Stem can be rotated 90°, and the pedals can be folded down to save space. The maximum rider weight is 120 kg.
