RRP: €1,099.95

A Practical Companion for Tours and Everyday UseWhether for long tours and cycling trips or simply for practical everyday use: The tried-and-true VICTORIA “Trekking 8.6” kicks off the 2022 model year with a fresh new look. The fresh two-tone color scheme gives the bike a modern look. With the now minimalist brand lettering, the designers have hit the nail on the head stylistically.The SHIMANO “Deore” 3-speed derailleur provides moderate, sporty propulsion. With its wide gear range and evenly spaced gears, it offers the right gear for any terrain. This is complemented by the lightweight wheels with sporty SCHWALBE “Marathon Racer” tires. With a 40 mm width and their shock-absorbing comfort, they’re ideal for touring in every respect.To meet VICTORIA’s usual high comfort standards, the “Trekking 8.6” is equipped with a Suspension Fork that can be adjusted to the rider’s weight and locked from the Handlebars when riding on smooth asphalt. Reliable braking power is provided by the hydraulic disc brakes from SHIMANO, which impress in two ways. First: their strong braking power. Second: strong braking power that can be precisely modulated.The CONTEC “DLux 50 N+” Front Light is particularly practical, reliably illuminating the path ahead with 40 lux. It’s also equipped with a light-dark Sensor that adjusts automatically to changing lighting conditions. Last but not least, both the Front Light and Rear Light feature a parking light function.
