As an SUV e-bike for sporty beginners, it offers a dynamic, comfortable ride with responsive handling and stable geometry. The riding position is both active and relaxed—ideal for longer tours and spontaneous outings. With 29" wheels, a 120 mm Suspension Fork, and a sturdy aluminum frame, you'll cruise confidently over rough terrain. The Bosch mid-drive motor with Smart System delivers reliable power, the 800 Wh battery ensures a long range, and the eMTB+ mode provides extra boost on climbs. The Shimano 10-speed derailleur shifts precisely, and hydraulic disc brakes provide reliable stopping power. Fenders and a maximum load capacity of 140 kg make the bike suitable for everyday use—and thanks to Bosch PowerMore 250 compatibility, you're well-equipped for longer rides, too.
