

CONWAY MTB hardtail "MS 929" Mod. 21

hardtail, 29", black pearl / bronze, 12-speed SRAM "NX" Mix, 56 cm / XL

Price: €737.00

Mountain bike all-rounder Those who ride the CONWAY "MS 929" quickly realise that the hardtail is a real all-rounder. Whether cross-country, on gravel tracks or playful trails, the all-round mountain bike feels entirely comfortable everywhere. In addition to the sporty, balanced riding style, the "Judy TK Solo Air" from Rockshox with its 100mm travel is primarily responsible for this. It makes the bike really capable off-road for cross-country and marathon courses. The 29" Schwalbe Rapid Rob tyres offer the best proven rollover performance over stones, roots and moguls. With a tyre circumference and width of 57mm, the contact area of the profiled tyres is also high, which explains the secure grip on gravel and forest ground. The 1x12-speed Sram NX Eagle derailleur allows you to crank up long climbs and short, steep and steep ramps, while the wide 11-51-tooth cassette gradation makes it possible to sprint to the finish on the after-work lap. The drive also does away with the front derailleur and a gear lever, making shifting fun in the truest sense of the word. On the downhill, on the other hand, the suspension fork and the grippy tyres on the "MS 929" score points, allowing you to really let the hardtail run. The Shimano BR-MT200 hydraulic disc brakes keep the bike in control. With a disc diameter of 180mm at the front and 160mm at the rear, they offer decent reserves for sensitive distribution of the high braking forces on all cross-country and marathon courses and all tours in the countryside.

Basic Data
