# VICTORIA Electric trekking bike "eTrekking 5.10" Mod. 22

**deep, 28", agate grey, 7-speed SHIMANO "Nexus" coaster brake, 56 cm / L**

## Price: €1,605.95

With harmonious drive on extended toursSee more, experience more, get out more - the eTrekking 5.10 makes a faithful companion. VICTORIA has given this comfort pedelec with low step-through a new coat of paint in terms of appearance and drive. With the fresh two-tone design and the reduced brand lettering, it is clearly cleaner and more modern than before.The e-bike is upgraded by the BOSCH "Active Line Plus" mid-motor and the high-range 500-Wh battery. The duo propels you harmoniously at speeds of up to 25 km/h and promises a significant increase in the number of kilometers covered. Thus, a crisp round through the city can spontaneously become an extensive tour into the countryside. The 7-speed "Nexus" internal gear hub from SHIMANO impresses with its low maintenance and comfortably rounds off the drive package.The hydraulic rim brakes "HS11" from MAGURA bring the necessary level of safety for every situation. The strong braking force can be precisely dosed on the one hand with the ergonomically shaped lever, on the other hand, it reacts lightning fast when it gets dicey. Tours through rain or mud are not excluded on long rides. Therefore, the eTrekking 5.10 is equipped with CURANA fenders that keep splashing water and dirt away. All bags and backpacks can be quickly and easily attached to the MIK luggage rack. For that extra bit of safety on the road, the CONDURA tires are equipped with reflective strips. Finally, after a long and eventful day, the CONTEC front light with a solid 30 lux illuminate the way home.
