

BRENNABOR Electric trekking bike "T-28e" Mod. 22

deep, 28", grey matt / black matt, 7-speed SHIMANO "Nexus" coaster brake, 55 cm / L

RRP €2,649.00

For all everyday and weekend trips The "T-28e" from BRENNABOR combines high riding comfort with superior technology and a pleasantly upright riding position. The combination creates a bike that you can use every day. It doesn't matter if it's the journey to work or to the supermarket or even a tour at the weekend. The "Active Line" BOSCH drive unit is integrated into the aluminium frame, which looks very tidy. The motor is located in the bottom bracket area and its low centre of gravity contributes to a balanced riding style. The energy storage unit is semi-integrated in the down tube. The pannier rack also contributes to the visual clarity: Its support strut is routed under the fender, which means that the fender is also held in place at the same time. As is typical for a trekking bike, the fenders are pulled down deeply to reliably keep out mud and moisture. The "T-28e" with its bright LED light, all reflectors and sturdy rear kickstand is suitable for everyday use and approved in accordance with the German Road Traffic Licensing Regulations (StVZO). The 7-speed "Nexus" internal gear hub with coaster brake supports the drive and the "BR-MT200" hydraulic disc brakes provide safe braking. The suspension fork compensates well for cobblestones in the city or dirt tracks on tour, while the wide and grippy tyres provide cushioning. The trekking e-bike is therefore well equipped for all everyday rides and weekend tours.

Basic Data

Supplier Article Number:	22083052
EAN	4251507971690
MSRP:	€2,649.00
WEEE registration number	DE92509320
DST-Code	1B01
SB-Article	No
Bidex-Code	122010
Fedas-Code	155021
Brand/Supplier	BRENNABOR
Unit of measure:	PIECE
Weight	27.4 kg

Technical Data

Battery capacity	500.0 Wh
Bosch Smart System	no
Brake system	coaster brake , hydraulic rim brake
