KAYZA's "Spodic Dry 6" is just such a bike - versatile and focused on the essentials. It also looks clean and tidy thanks to internally routed cables. In the forest, the 27.5" wheels score points with agile and nimble steering behavior. They can also accelerate quickly. With the finely profiled tires, they have the right grip on all paved and unpaved paths. They still run smoothly on asphalt. The SHIMANO "Deore" with its 27 gears helps with propulsion, while the SUNTOUR Suspension Fork levels the ground - whether it's rooty trails or cobblestone passages in the city: The Fork irons everything smooth. The SHIMANO "MT-200" hydraulic Disc Brakes are reliable - they don't lose power even in wet conditions. Finally, the "Spodic Dry 6" is fit for the city thanks to the extensive equipment of LED Front Light, Rear Light, Fender and Fender, which always keep your trouser legs "dry".
