Freestyle BMX at an entry-level price. Solid and well thought-out - that's RADIO's "Revo Pro", a freestyle BMX at an entry-level price. With its short and responsive geometry, the bike is inspired by professionals to give you the perfect introduction to the world of BMX. The three-piece Crank Spider adds value to the bike, as all three parts of the Crank can be replaced individually if necessary. Added to this are the tapered Fork and the 25-9 gear ratio - fine details that make the "Revo Pro" stand out. Suitable for bikers between 136 and 159 cm tall.
