

KAYZA Electric trekking bike "Tanana Dry 4" Mod. 22

trapeze, 28", snow white / red , 9-speed SHIMANO "Altus", 55 cm / L

RRP €2,749.95

A powerful boost through everyday life! If you are looking for a confident everyday companion with a permanent tailwind, the "Tanana Dry 4" is just the thing for you. The BOSCH "Performance" mid-motor pushes you forward powerfully and can provide support when pedaling up to 25 km/h. The four support levels of the engine and the SHIMANO "Altus" 9-speed derailleurs are responsible for the right cadence at all times. The 500 Wh battery provides sufficient energy and fits elegantly into the down tube. The engine and battery fit very harmoniously into the overall appearance of the trekking bike with its strong, angular tube shapes. And the moderate, sporty riding position is also part of the overall look of the "Tanana Dry 4". It can also be easily adjusted using the angle-adjustable stem. The SUNTOUR Suspension Fork can be adjusted to the rider's weight, which contributes to the bike's off-road and cobblestone suitability. The tires also work well on asphalt or cobblestones as well as on dirt roads. Whether in the city or on long descents, the "BR-MT 200" hydraulic disc brakes from SHIMANO are powerful even in wet conditions and can be operated smoothly at all times. With bells and the carrier as well as all reflectors and the bright LED light, the pedelec is fully suitable for everyday use and touring. The long fenders keep your trouser legs dry and clean at all times, making the "Tanana Dry 4" a solid everyday bike in any weather and any season.

Basic Data

Supplier Article Number:	22081427
EAN	4251507976176
MSRP:	€2,749.95
WEEE registration number	DE92509320
DST-Code	1B01
SB-Article	No
Bidex-Code	122010
Fedas-Code	155021
Brand/Supplier	KAYZA
Unit of measure:	PIECE
Weight	27.5 kg
