

## KAYZA Electric trekking bike "Tanana Dry 4" Mod. 22

wave, 28", snow white / red , 9-speed SHIMANO "Altus", 50 cm / L

**RRP €2,749.95**

Complete everyday companion If you want a sporty approach to your everyday rides and tours, the "Tanana Dry 4" from KAYZA is a low step-through bike that is a speedy companion with a permanent boost of up to 25 km/h. The tailwind is provided by the Bosch Performance drives with the 500 Wh Battery with its support when pedaling up to 25 km/h. The four support levels of the engine and the Shimano Altus 1x9-speed derailleur are responsible for the right cadence at all times. The engine and Battery fit harmoniously and functionally into the overall appearance of the frame with its low step-through and strong, angular tube shapes. And the overall appearance of the "Tanana Dry 4" also includes the pleasantly comfortable riding position. It can also be easily adjusted using the angle-adjustable Stem. The SR Suntour Suspension Fork can be adjusted to the rider's weight, which contributes to the bike's off-road and cobblestone suitability. The tires also work well on asphalt or cobblestones as well as on dirt roads. Whether in the city or on long descents, the Shimano BR-MT 200 hydraulic disc brakes are powerful even in wet conditions and can be operated smoothly at all times. With long Fenders, bells and the Carrier as well as all Reflectors and the bright LED Light, the "Tanana Dry 4" is fully suitable for everyday use and touring.

### Basic Data

Supplier Article Number:	22081431
EAN	4251507976190
MSRP:	€2,749.95
WEEE registration number	DE92509320
DST-Code	1B01
SB-Article	No
Bidex-Code	122010
Fedas-Code	155021
Brand/Supplier	KAYZA
Unit of measure:	PIECE
Weight	28.2 kg
