

KAYZA Electric trekking bike "Tanana Dry 6" Mod. 22

wave, 28", stone grey matt / gold matt , 9-speed SHIMANO "Alivio", 45 cm / M

RRP €2,949.95

Touring and trekking e-bike The "Tanana Dry 6" from KAYZA is a complete trekking e-bike for all occasions, both for everyday use and for extended tours. Always with a constant tailwind of up to 25 km/h from the powerful Bosch Performance CX mid-motor with 500 Wh Battery. And after easy mounting and dismounting, always in a pleasantly comfortable riding position. The engine and Battery blend harmoniously into the overall appearance of the slim and angular aluminum step-through frame. The engine is harmoniously framed in the bottom bracket area and the Battery disappears into the frame tube and under the Cover. The Carrier also plays a role in the tidy look. As its upper support strut runs under the Fender and holds it in place, the rear also has a tidy look. Two panniers fit on the Carrier for the big shopping trip or the touring equipment for the weekend tour or small things in between on the flap. The SR Suntour Suspension Fork can be adjusted to the rider's weight, which contributes to the bike's off-road and cobblestone suitability and can also be locked out. for smooth surfaces. The Schwalbe Marathon GT tires also work well on asphalt or cobblestones as well as on dirt roads. Whether in the city or on long descents, the Shimano BR-MT 200 hydraulic disc brakes are powerful even in wet conditions and can be operated smoothly at all times. With long Fenders, bells and the Carrier as well as all Reflectors and the bright LED Light, the "Tanana Dry 6" is completely suitable for everyday use and touring.

Basic Data

Supplier Article Number:	22081480
EAN	4251507976275
MSRP:	€2,949.95
WEEE registration number	DE92509320
DST-Code	1B01
SB-Article	No
Bidex-Code	122010
Fedas-Code	155021
Brand/Supplier	KAYZA
Unit of measure:	PIECE
Weight	26.5 kg
