

## KAYZA Electric trekking bike "Tanana Dry 6" Mod. 22

wave, 28", stone grey matt / gold matt , 9-speed SHIMANO "Alivio", 55 cm / XL

**RRP €2,949.95**

Balanced & natural Whether you're swinging arms on an e-bike to go shopping, visit your friends or want to do without a car on the way to work - the "Tanana Dry 6" from KAYZA is there for you. The moderately sporty riding position on this pedelec is ideal for long tours, but also ensures complete comfort on everyday routes. All this with a constant tailwind of up to 25 km/h from the powerful BOSCH "Performance CX" mid-motor, which is powered by the 500 Wh Battery. The appearance of the "Tanana Dry 6" is slim with an angular aluminum frame, in which the engine and Battery fit perfectly. With the Battery semi-integrated in the down tube and the engine in the bottom bracket area, the result is a very balanced riding experience - as if you were sitting on a bike without a drive. To make the most of its strengths, the SUNTOUR Suspension Fork can be adjusted to the rider's weight. It makes a significant contribution to the off-road and cobblestone suitability of the bike. It can also be locked out on smooth straight sections. The SCHWALBE tires also work well on asphalt or cobblestones as well as on dirt roads. Whether in the city or on long descents, the "BR-MT 200" hydraulic Disc Brakes from SHIMANO are powerful even in wet conditions and can be operated smoothly at all times. The Carrier fits two panniers for large shopping trips or touring luggage for weekend excursions. With long Fenders, bells as well as all reflectors and the bright LED Light, the "Tanana Dry 6" is completely suitable for everyday use and touring and can also be used as a commuter e-bike.

### Basic Data

EAN	4251507976299
MSRP:	€2,949.95
WEEE registration number	DE92509320
DST-Code	1B01
SB-Article	No
Bidex-Code	122010
Fedas-Code	155021
