

KAYZA Electric trekking bike "Talik Dry 8" Mod. 22

diamond, 28", dark navy blue / red, 10-speed microSHIFT, 52 cm / L

RRP €3,249.95

Sporty and comfortable Anyone who likes to go on tours and is both sporty and comfortable should take a look at the "Talik Dry 8". The trekking e-bike can be used anywhere and at any time: on the way to work, to the shops, out into the countryside - even all weekend long. Always with you: the powerful support of the BOSCH "Performance CX" engine. Thanks to its position on the bottom bracket and the fully integrated Battery in the down tube, the center of gravity is so low that riding feels completely natural and balanced. The motor power can be conveniently adjusted from the Handlebar using the four support levels, and the desired cadence can also be adjusted using the 10-speed microSHIFT derailleur. The microSHIFT stands for a wide range and fast and precise gear changes. The Suspension Fork from SUNTOUR can be individually adjusted to the rider's weight and, together with the SCHWALBE tires, provides good damping on off-road and cobblestone tracks. However, the Fork can also be locked on smooth roads. Whether in the city or on long descents, the Shimano "BR-MT 200" hydraulic Disc Brakes always provide a powerful grip - even in wet conditions, and are always easy to operate. With long Fenders, bells and the Carrier as well as all Reflectors and the bright LED Light, the "Talik Dry 8" from KAYZA is completely suitable for everyday use and touring. The Carrier accommodates panniers that can be filled with everything you need for everyday use or on tour.

Basic Data

Supplier Article Number:	22081491
EAN	4251507976312
MSRP:	€3,249.95
WEEE registration number	DE92509320
DST-Code	1B01
SB-Article	No
Bidex-Code	122010
Fedas-Code	155021
Brand/Supplier	KAYZA
Unit of measure:	PIECE
Weight	26.8 kg

Technical Data

Battery capacity	625.0 Wh
