

atranvelo Lowrider "Explorer"

black

Price: €15.40

Let's go bikepacking with the "Explorer" Lowrider! Being well prepared is half the battle: With the Explorer Lowrider from ATRANVELO, you're on the right side when bikepacking. It can be loaded with up to ten kilos, which optimizes the weight distribution between the front and rear wheels. This means that the Rear Wheel is neither overloaded nor does the Front Wheel tend to lift off on steep mountain passages. The carrier can be attached to the Fork of the bike using Lowrider eyelets. A reinforcement bar grips over the Front Wheel and thus provides more stability. The Explorer is suitable for bikes with a wheel size of 26 to 28. Fenders can also be fitted via separate fastening eyelets to keep the bike as clean as possible in the rain or on muddy surfaces.

Basic Data

Supplier Article Number:	1498-4101
EAN	7350006381713
MSRP:	€30.95
Bidex-Code	208050
DST-Code	2006
