

atranvelo Carrier "Maxi AVS"

black

RRP €79.95

Strong & suitable for touringThe Maxi AVS is an adjustable Carrier from ATRANVELO for the Rear Wheel that fits 24 to 28 wheels. The 14 mm thick aluminum tubes and V-shaped stays make it very stable. With a tare weight of 675 g, it can be loaded with up to 30 kg. In combination with the Front Wheel Carriers from the Cargo series, it cuts a fine figure on tours or for transporting larger purchases. This carrier is attached to the rear stays of your bike and is equipped with the AVS transport system. This means that bags and baskets with the appropriate adapter can be quickly and easily clicked onto the carrier and released again. The stainless steel Spring Clamp is used to attach loose items such as a ball or picnic blanket.
