

BASIL Motor Cover "Mid Engine Cover Universal"

black lime

RRP: €35.99

Brackets what is preciousOptimal protection for the e-bike's precious engine. The "Mid Engine Cover Universal" is used to protect the mid-engine from cold, shocks and damage during transportation. The cover is made of high-quality neoprene and is available in black with lime white details. The water-repellent properties of the neoprene engine cover provide perfect protection against splash water, dirt and mud./> /> The black Protective Cover is easy to attach. The pedals remain accessible even with the cover on. This is a great advantage if you want to change the pedal position, for example for transport on the bike carrier, and have already attached the cover.
