

BASIL Rain Trousers "Skane Men"

size S, teal green

RRP: €99.99

For daily useBASIL has developed the "Skane" bike rain trousers especially for cyclists who commute to work by bike every day and therefore have high demands on the material. The sporty and practical trousers are waterproof, windproof, breathable, comfortable and available in various paints. The fabrics are manufactured in accordance with the Bluesign standard. With its two-way stretch material and ergonomic seams at the knees, the "Skane Men" offers a comfortable fit. The adjustable waistband with an additional drawstring and the trouser legs, which can be adjusted with the help of Velcro fasteners, contribute to the perfect fit. What's more, the rain trousers can be put on and taken off quickly and easily thanks to the almost full-length side zipper. The rain trousers master their main task - rain protection - with flying colors: their T-Fabric fabric has a water column value of 10,000 WP, while the rain drain on the zipper ensures dry trousers even after a heavy downpour. The fabric also keeps the wind out and is good at wicking moisture away to the outside (10,000 MVP). On the outside, color-coordinated reflective zones on the front and back ensure visibility. The suspension eyelet is practical for drying, while the integrated inner pocket is ideal for stowing small commuting essentials. In XXL Long with extra-long trouser legs.

Basic Data

Supplier Article Number:	40063
MSRP:	€99.99
SB-Article	Yes
Bidex-Code	402020
Fedas-Code	260817
DST-Code	3A02
Brand/Supplier	BASIL
Unit of measure:	PIECE
Weight	0.353 kg
