

BASIL Backpack "Flex"

black

RRP €59.99

Safe & without unnecessary sweat on the road A backpack that makes a sweaty back a thing of the past: the "Flex" bike backpack from BASIL is the ideal solution. With the "Hook-On" system, you can simply hook the backpack onto the Carrier like a bag. Of course, this also works on an e-bike. Because you carry the backpack on the Carrier, your back is still dry when you reach your destination. What's more, because the weight of the Bag is carried a little lower, you ride more stably and safely. The "Flex" is made of high-quality polyester and has a highly fashionable design. On the way to sports? Take the "Flex" with you. On the way to work? Conveniently hook the bike backpack onto your Carrier. You can benefit from this transport option on numerous occasions. The backpack has padded carrying straps and a padded back section. The front compartment with zipper and another zippered compartment allow you to store all your important items within easy reach. The attached reflectors and the option of attaching LED lighting ensure that you can be seen better in the dark.

Basic Data

Supplier Article Number:	17776
EAN	8715019177767
MSRP:	€59.99
