

Dr. Pulley Variomatic weight

15,0g, Dr. Pulley

Price: €36.25

Normal vario rolls wear out and flatten after some time at one or more points. This causes immediately an uneven acceleration. Those flattening's are integrated by Dr. Pulley. That's why they do not twist and therefore slip always at the same place and wear evenly. The result is an amazing, unprecedented ride quality and enhanced uniform acceleration without jerking. Excellent sliding properties on the aluminium variomatic material, as well as a significantly longer life thanks to the special self-lubricating polymer nylon material. No need of additional grease or lubricant. It is generally recommended by Dr. Pulley to use about 10-15% lighter rolls than the original. This proves a substantially stronger and steadier acceleration with constant high speed

Basic Data

Supplier Article Number:	SR-2517/15,0D04-5799
MSRP:	€74.86
SB-Article	No
Brand/Supplier	Dr. Pulley
Unit of measure:	PIECE
Weight	0.117 kg

Technical Data

Amount of castors	8 pcs.
Design	variomatic weights
Main colour	black
Size	25 x 17 mm
Variant	Article
Weight	15,0 g
