

Continental Tube "Tour 28 All"

Sclaverand valve 42mm, workshop package, delivery only in packaging unit (50pcs.), bulk

Price: €2.86

The Tour 28 All tube from CONTINENTAL If you don't want to spend a lot of time patching a tube on tour, you'll need a spare tube in your luggage. The ETRTO dimension on the side of the tire provides information about the appropriate Tube. The first two digits before the dash indicate the tire width in mm, the digits after the dash indicate the inner diameter of the tire, which for the Tour 28 All is 27" and 28". For the valve and the correct length, it is best to use the old tube as a guide: the Sclaverand SV valve on the Tour 28 All is 42 mm.
