CONTINENTAL Race 28" It can be seen on the bike, and yet every bike needs (at least) two of its kind: the inner tube. The tube must fit! You can tell which size Tube is the right one by looking at the sidewall of most Tires. The first two digits of the ETRTO measurement indicate the tire width, while the following digits indicate the inner diameter of the tire in mm. The Race 28" covers numerous widths for 27" and 28" tires. Pay attention to the rims: the Sclaverand SV valves are 60 mm long.
