

Continental Tube "MTB 27,5"

Sclaverand valve 42 mm, Light, 141 g

Price: €2.96

The MTB 27.5 Tube from CONTINENTALA bike without a tube is possible, but not rideable. That's why you should always have a spare tube with you when you're out and about. The tube must fit! You can tell which size Tube is the right one by looking at the sidewall of most Tires. The first two digits of the ETRTO measurement indicate the tire width, while the following digits indicate the inner diameter of the tire in mm. The MTB 27.5 covers numerous widths for 27.5" (650b) tires. Incidentally, the Sclaverand SV valve on the MTB 27.5 is 42 mm long.
