

## fi'zi:k Handlebar Tape "Terra Microtex Bondcush Tacky"

white

**Price: €23.11**

For the best grip on gravel Making off-road heroes happy. A special handlebar tape for gravel bikes is something special. With the "Terra Microtex Bondcush Tacky", FIZIK presents a grip tape that is perfect for anyone who rides their bike off-road. The design of the handlebar tapes meets the highest requirements. For example, a layer of polymer foam helps to dampen vibrations and shocks. In combination with 3 mm thick Microtex, this results in comfort and outstanding durability. The Handlebar Tape is particularly versatile. There is no adhesive strip. Instead, a gel layer promises additional damping. It also makes it easier to remove the tape when you want to clean the bike. In addition, the non-slip tacky surface with a textured finish provides very good grip in all conditions. The Handlebar Tape weighs 71 g and is available in a range of attractive paints to suit gravel and off-road. It enables high performance, especially off the beaten track.
