FULCRUM "Racing 5" Thanks to a completely new concept, the already proven "Racing 5" Wheel allows even higher performance. The very features that have made the FULCRUM "Racing 5" such a popular Wheel are now supplemented by new elements, making this model accessible to everyone, but also ideal for racing. The asymmetrical profile of the rear rims and the design with 20 spokes provide significant performance advantages in terms of lateral and torsional stiffness, but also in terms of increased responsiveness. This design offers a better distribution of spoke tension, making the Wheel stiffer and more efficient.
