

FULCRUM Wheel Set "Wind 40 DB C19"

CA 9-12

RRP €1,315.00

FULCRUM "Wind 40 DB C19" Wheel SetsFULCRUM "Wind 40 DB C19" is the result of the synthesis between aerodynamics and versatility.Of course, it should be noted that the design of the 40 mm rims was derived directly from the 55 mm profile: The solutions developed for the higher profile have been fully adopted in this less specialized version. 40 mm makes for a lightweight rim, built with layers of modern unidirectional carbon fibers, wide and with a pronounced rim flange (8 mm radius): Innovative shapes that form a single unit with the tire, allowing the airflow acting on the spinning Wheel to pass through, thus avoiding turbulence.40 mm also means versatility of use, with this height being very popular with cyclists looking for a balanced, stiff, agile and precise Wheel with excellent performance on climbs.The system also features CNC-machined aluminum hubs on which the 24 straight-pull spokes are mounted. It ensures the high rigidity of the assembly, both during acceleration and brakes, without any interference from the asymmetrical design of the disc and cassette.Undoubtedly, the FULCRUM "Wind 40 DB C19" offers itself as a polyvalent Wheel with special attention to aerodynamics, allowing a high speed on climbs, flats and descents.

Basic Data

Supplier Article Number:	RW40-DFR22AC
MSRP:	€1,315.00
Fedas-Code	160463
DST-Code	2P01
Bidex-Code	204070
SB-Article	No
Brand/Supplier	FULCRUM
Unit of measure:	PAIR
Weight	1.86 kg

Technical Data

Axle	12mm full-floating axle
Brake system	for disc brake, Center Lock
Freewheel body	CA
Hub colour	black
Installation width	100 mm , 142 mm
Main colour	black
Mounting	wheel set
Range of application	road
Rim colour	black
Rim type	clincher , tubeless
Shifting system	9-speed , 10-speed , 11-speed , 12-speed
Spoke colour	black
Spoke material	stainless steel
Variant	Article
Wheel size	28 "
