

G-FORM Elbow Protector "Pro-X Youth"

size L/XL (biceps: 24-28cm / forearm: 15-18cm)

RRP €44.99

Light, flexible and reliableThe "Pro-X" elbow pads fit well, are lightweight and breathable, so they are inconspicuous in the best sense of the word. Instead of foam or hard plastic, G-FORM uses a soft and flexible RPT pad for protection. RPT stands for "Reaction Protection Technology". However, the higher the impact energy, the faster and stronger the material hardens on impact. Immediately after hardening, the pad also becomes flexible again for maximum freedom of movement when continuing to ride. Thanks to the moisture-wicking compression fabric (with sun protection factor 50+), the elbow pads, which are specially adapted for young people, are comfortable to wear and fit perfectly. What's more, the silicone bands at the top and bottom make them completely non-slip. In addition to MTBs, the Knee Protectors are also suitable for water sports or skateboarding, for example, and not least for the washing machine.

Basic Data

Supplier Article Number:	YEP0102339
MSRP:	€44.99
SB-Article	Yes
Bidex-Code	408040
Fedas-Code	160932
DST-Code	3H06
Brand/Supplier	G-FORM
Unit of measure:	PAIR
Weight	0.254 kg

Technical Data

Design	elbow
International size	L , XL
Main colour	black
Variant	Article
