

G-FORM Knee Protector "Pro-X Youth"

size S/M (thigh: 25,5-30,5cm / calf: 16,5-21,5cm)

RRP €54.99

Versatile knee protectorFor MTBs, whether BMX, cross country or downhill, the G-FORM "Pro-X Youth" Knee Protector combines the best protection with a high level of comfort. This is primarily due to the fact that the RPT (Reaction Protection Technology) Pads adapt softly and flexibly to the knee during normal use and then - but then immediately! - harden abruptly in the truest sense of the word on impact. With the properties for which G-FORM holds 87 patents on construction and manufacture, the Knee Protectors can be pleasantly light and thin, making them easy to wear under Shorts. Comfort is also provided by the moisture-wicking compression fabric, which also has a sun protection factor of 50+. Silicone bands at the top and bottom ensure a secure fit, as does the size gradation for teenagers.In addition to MTBs, the Knee Protectors are also suitable for water sports or skateboarding. They can also be washed in the washing machine for frequent use.
