Good grip & safety for the children bike A good pair of tires is particularly important for children, as it helps them to have a pleasant riding experience and also offers sufficient safety. The "Skip" tire from the Kids line is a classic bicycle tire for children's and youth bikes and offers everything that youngsters need for their adventures on the bike. When riding on mainly paved roads, the small tire is in its element and offers good grip with its tread. The carcass of the tire adapts easily to different ground conditions and ensures smooth contacts with the ground. In addition, with a width of 47 mm, the "Skip" has excellent rolling and suspension properties on uneven roads when ridden with a lower air pressure. The reflective stripes on the tire sidewall also ensure good lateral visibility in the dark. The Clincher Tires are available for wheel sizes 16, 18, 20 and 24". Thanks to its high-quality workmanship and practical safety features, the "Skip" is the perfect children's tire for everyday rides.
