

HERRMANS Grip "Ergo Dual Density"

black with grey gel surface

Price: €1.52

Discover the Herrmans "Ergo Dual Density" grip - the ergonomic 2-component grip made of high-quality Kraton rubber (TPE). With a length of 120 mm and the option of shortening it to 90 mm, this grip fits perfectly with various shifting systems such as SRAM 3/5/7-speed and Shimano "Nexus". The grips are plasticizer-free and offer optimum comfort and grip thanks to the grey gel surface in combination with the black base. Ideal for long rides and daily routes, the "Ergo Dual Density" ensures a pleasant riding experience and reliable control.
