

## KMC Chain "e1"

EPT, self-service package, 110 links

**Price: €17.39**

Chain E1 from KMC Due to high speeds, powerful drives and higher bike weight, e-bike chains are exposed to far greater loads than conventional chains. This is why the E1 from KMC is specially designed for use on motorized bikes. The E1 is made of stainless steel, which has a number of advantages such as low maintenance and corrosion resistance. The chain is particularly hard-wearing thanks to its special anti-rust coating. Because the chain can withstand the forces of an e-bike, it is labeled "e-bike special".
