

KMC Chain "Z1eHX Wide"

EPT, self-service package, 112 links

RRP €21.06

Z1eHX Wide chains from KMC The Z1eHX Wide chain from KMC is versatile. It is suitable for use on both single speed bikes and e-bikes and is equally at home on tours and in the city. As the 112-link chain is made of steel, it is particularly hard-wearing. A special anti-rust coating makes the chain particularly robust and hard-wearing. In order to be able to close the chain properly, a Connecting Link is included in the scope of delivery, which connects the two loose ends. The note "E-Bike-special" indicates that the chain is specially designed for the requirements of an e-bike.
