

## MAVIC Helmet "Ksyrium Pro MIPS"

black metal, size L (57-61cm)

**Price: €62.50**

Racing helmets from MAVIC The image of the annoying bike helmet that looks stupid and is actually just annoying is long outdated. The Ksyrium Pro MIPS from MAVIC not only protects your head, but is also en vogue. Now all you need is the right size. The Ksyrium Pro MIPS is suitable for a head circumference of 57 cm - 61 cm. It can also be widened or narrowed with millimeter precision using the Twist Lock. The reflective elements on the outer shell of the Helmet make you more visible in turbulent traffic and give you added safety. Added to this is the MIPS system, which wraps around your head like a protective layer in the event of an angled impact. An inner sliding shell shifts slightly in the event of a crash to provide your head with the best possible protection. Cut-outs in the racing helmets ensure comfortable ventilation, especially when the tour gets strenuous. The Ksyrium Pro MIPS has a total of 22 ventilation openings. The Ksyrium Pro MIPS can be closed with a plug-in fastener.

### Basic Data

Supplier Article Number:	41006123
EAN	0193128150839
MSRP:	€120.00
Fedas-Code	160921
DST-Code	3F02
