

MAVIC Helmet "Ksyrium Pro MIPS"

white / black metal, size S (51-56cm)

Price: €62.50

MAVIC racing helmets The image of the annoying bike helmet that looks stupid and is actually just a nuisance is long outdated. The Ksyrium Pro MIPS from MAVIC not only protects your head, but is also en vogue. Now all you need is the right size. The Ksyrium Pro MIPS is suitable for a head circumference of 51 cm - 56 cm. It can also be widened or narrowed with millimeter precision using the Twist Lock. The reflective elements on the outer shell of the Helmet make you more visible in turbulent traffic and give you added safety. Added to this is the MIPS system, which wraps around your head like a protective layer in the event of an angled impact. An inner sliding shell shifts slightly in the event of a crash to provide your head with the best possible protection. To prevent heat build-up, the Ksyrium Pro MIPS is designed with a total of 22 ventilation slots. The Ksyrium Pro MIPS can be closed with a plug-in fastener.

Basic Data

Supplier Article Number:	L40782200 GR.S
EAN	0889645936697
MSRP:	€115.00
Fedas-Code	160921
DST-Code	3F02
