

MAVIC Helmet "Ksyrium Pro MIPS"

white / black metal, size M (54-59cm)

Price: €62.50

Ksyrium Pro MIPS racing helmets from MAVIC The Ksyrium Pro MIPS from MAVIC is a racing helmets for the daily commute. It is suitable for head circumferences of 54 cm - 59 cm. If it is still too tight or a little too wide, it can be precisely adjusted to the shape of your child's head using the Twist Lock. The reflective elements on the outer shell of the Helmet make you more visible in turbulent traffic and give you added safety. Added to this is the MIPS system, which wraps around your head like a protective layer in the event of an angled impact. An inner sliding shell shifts slightly in the event of a crash to provide your head with the best possible protection. During long rides in the sun or strenuous stages, heat can build up under the Helmet. With its 22 ventilation slots, the Ksyrium Pro MIPS ensures optimum temperature control. The Ksyrium Pro MIPS can be closed with a plug-in fastener.

Basic Data

Supplier Article Number:	L40782200 GR.M
EAN	0889645936703
MSRP:	€115.00
