RRP: €13.50

Small, round and versatileThe "Mini Adapter" from KLICKFIX is a small and versatile adapter for Handlebars, Frames and Seatposts with a diameter of 15 to 60 mm. The advantage of the stainless steel band is that it also adapts to oval and other non-round tubes. Another advantage is that the adapter can be rotated in 90° increments - and so can the part on the adapter. The manufacturer advises against using it on carbon or other lightweight seatposts and other tubes.
