

KLICKfix Basket "Festkorb"

black

RRP: €39.95

Always with youThe "fixed basket" from KLICKFIX simply always stays on the Handlebar. This is ensured by the corresponding Bracket, which is included in the scope of delivery. The Bracket can be mounted at different heights to suit the respective situation on the Handlebar, for example with the light on the Handlebar or on the Fork. Thanks to the patented KLICKfix mount with cable tension, the fine-meshed wire baskets can carry up to 7 kg without the Bracket twisting on the Handlebar - so no further support to the Fork or steering tube is necessary. The Bracket fits with the clamps on standard handlebars between 22 and 26 mm in diameter. Measuring 26 x 25 x 35 cm (L x W x H), the Basket has a volume of 16 liters.
