The puncture-proof MTB tire The "Marathon Plus MTB" from SCHWALBE is a particularly puncture-resistant MTB tire. It also has the ECE-R75 test mark and is therefore also approved for fast e-bikes up to a speed of 50 km/h. This bike tire rolls easily over firm paths on its central tread. Off-road, its strong outer lugs provide plenty of bite. The SmartGuard insert of this tire is responsible for the outstanding puncture protection. Furthermore, the reflective strips on the sidewalls guarantee good visibility even in the dark. The "Marathon Plus MTB" is available in 26", 27.5" and 29".
