SCHWALBE No. 17 If you don't want to spend a long time patching a tube on tour, take a Spare Tube with you. The tube must fit! You can tell which size Tube is the right one by looking at the sidewall of most Tires. The first two digits of the ETRTO dimension indicate the tire width, while the following digits indicate the inner diameter of the tire in mm. The No. 17 covers numerous widths for 27" and 28" tires. The No. 17 has a 40 mm long Scloverand SV valve.
