

## SIGMA SPORT Battery LED Rear Light "Blaze"

black

**Price: €18.33**

More safety thanks to brake light function The "Blaze" from SIGMA SPORT is the first StVZO-approved rear lights from SIGMA SPORT with a brake light function. It can also be used during the day when the continuous light is switched off, which is particularly beneficial for frequent riders such as commuters and athletes who ride in groups. Another safety plus is the integrated brightness sensor, which automatically activates the rear lights in poor light conditions. The long light duration, the low weight of 22 grams, a visibility range of 500 meters and the affordable price make the "Blaze" an all-rounder for every seatpost.

### Basic Data

Supplier Article Number:	15100
EAN	4016224151004
MSRP:	€32.95
Fedas-Code	160676
DST-Code	2E03
SB-Article	Yes
Bidex-Code	207040
WEEE registration number	DE58571444
Brand/Supplier	SIGMA SPORT
Unit of measure:	PIECE
Weight	0.033 kg

### Technical Data

Attachment	universal
Design	rear light
Features	USB charging connection
Functions	Stopplicht , diverse light modes
Illuminant	LED
Main colour	black
Operating time max.	7 h
Power supply	battery mode

<b>Range of application</b>	bike
<b>StVZO conform</b>	yes
<b>Variant</b>	Article
