

Snell Protective Cover

black

Price: €9.99

Top protection for e-bike transport This handlebar protector from SNELL protects the e-bike cockpit when parked or during transportation. The cover covers the entire handlebar and thus the mount for the displays, the Remote Control as well as the brakes, grips and gears. To fit the cover, slide it over the Handlebar, close the access opening with the Velcro fastener and fasten the 2 attached Velcro strips around the cover. This ensures a secure hold even when transporting the e-bike on the highway. The handlebar protector is rainproof, but not completely waterproof. This allows moisture and any condensation to escape.
