

SUPERNOVA Rear Light "E3 Tail Light 2"

polish silver, seat post attachment

Price: €26.79

Rear Light Insurance Anyone who is guided by a powerful front light on their bike also wants to be seen and protected by the rear lights. SUPERNOVA has therefore developed the "E3 Tail Light 2" for the E3 Front Light. With "Twin Beam Technology", it offers very bright illumination to the rear and sides of a total of 250°. The parking light electronics of the E3 Tail Light 2 are outsourced to the E3 Front Light. This explains the small design and the weight of just 12 g of the CNC-milled rear lights. It is also completely waterproof and, with its three LEDs, is one of the brightest rear lights approved according to StVZO. Available in different paints for mounting on the seatpost and Carrier.

Basic Data

Supplier Article Number:	N-TK2-S-SLV
MSRP:	€49.00
DST-Code	2E03
Fedas-Code	160672
SB-Article	Yes
Bidex-Code	207040
Brand/Supplier	SUPERNOVA
Unit of measure:	PIECE
Weight	0.26 kg

Technical Data

Attachment	seat post
Colour designation	silber poliert
Current type	DC
Design	rear light
E-bike type	special
Functions	standlight
Illuminant	LED
Main colour	silver
