

CONTEC Rear Light "TL-127"

with standlight

RRP: €9.95

Modern bicycle lighting with LEDs provides added safety for the bicycle - not only in city traffic, but also on the country road. The CONTEC LED rear rack light "TL-127" offers precisely this high protection with optimal visibility. The rear light is equipped with 3 extra-bright LEDs, 2 of which are positioned in such a way that they can also be seen from the side.The LED rear light for dynamos impresses with its large and long-lasting luminosity. The rear light can be reliably detected both from a direct top view and from a side perspective. Thanks to the integrated large-area reflector and high-quality parking light function, the reflector can still be seen clearly even if the bicycle has to stop on the road at night.The LED rear rack light "TL-127" is suitable for mounting to a rack (80 mm). The LED rear light for dynamos has 2 connections, which are secure thanks to the innovative push&pull plug.Like all parts by CONTEC, the LED rear rack light "TL-127" is manufactured with great care. In addition to the first-class push&pull plug, it also has high-quality and break-resistant plastic for the housing. The rear light with its trendy design is also marked with a German check number.If you do not want to do without the radiance of a dynamo-powered rear light and want to at the same time trust the safety of a parking light, the LED rear rack light "TL-127" by CONTEC is exactly the right bicycle lighting for you.
