

CONTEC Battery LED Light Set "24sevenStop"

black / grey

RRP: €59.95

The all-round carefree packageWhat do you prefer: the best path illumination or maximum light duration? Fortunately, you don't have to decide. The 24sevenStop lighting set from CONTEC offers you both options. Simply choose between the three setting options 70 lux, 30 lux or 15 lux. In addition, the headlight has a light-dark sensor that regulates the brightness level independently, and thus ensures the longest possible battery life. When the maximum possible lighting time of about 9 hours is reached, you can recharge the headlamp via micro USB cable. The same principle applies to the rear light, where the maximum lighting time is 6 hours. You can read the battery level via a display. The rear light has an innovative brake light function, which gives you and other road users more safety. If the red light of your bike lights up, others can react better. You can easily attach the 24sevenStop light set of CONTEC without tools on your bike.

Basic Data

Supplier Article Number:	51227602-6
EAN	4251507943116
MSRP:	€59.95
DST-Code	2E01
SB-Article	Yes
Bidex-Code	207050
Fedas-Code	160677
WEEE registration number	DE86405961
Brand/Supplier	CONTEC
Unit of measure:	PIECE
Weight	0.147 kg

Technical Data

Attachment	universal
Design	light set
Features	incl. integrated rechargeable battery , sensor , standlight , stop light
Features	USB charging connection
Functions	Stopplicht
Illuminant	LED
Luminosity	70 lux
Main colour	black
Operating time max.	9 h
