

CONTEC Stem "Brut 35"

110mm, 31,8mm handlebar clamp

RRP €24.95

Stems not only enhance the appearance of bicycles, but also significantly improve the riding quality. This also applies to the CONTEC MTB stem "Brut 35", which is available for 1 1/8" (28.6 mm) fork steerer tube diameters. It impresses with simple assembly and the best materials. The black stem, which is perfectly suited for MTBs due to its light weight, is made of aluminium 6061. This relatively soft metal is characterised by an enormous tensile strength. This MTB handlebar stem is also elaborately anodised, sandblasted and 3D forged. The faceplate is removable and it has an ergonomic angle of + 35°. The EN MTB STANDARD is adhered to during the production of the stem, and is suitable for common Ahead systems. This functional handlebar stem is fastened with several stainless steel clamp bolts. These are included in the scope of delivery. This proven product is available in various lengths and with different handlebar clamps, offering the best performance thanks to its sophisticated and high-quality finish.

Basic Data

Supplier Article Number:	JD-ST42-2
EAN	4250311372525
MSRP:	€24.95
Fedas-Code	160223
SB-Article	Yes
Bidex-Code	205020
