

CONTEC Steering Tube Extension "Heads-Up DLX"

black

Price: €14.99

Cost effective & efficient Tuning parts for bicycles - for example the CONTEC fork steerer tube extension "Heads-Up DLX" - provide better riding characteristics and comfort. This handlebar riser is ideal for mountain bikes in particular and is suitable for Aheadset forks with aluminium or steel steerer tubes. However, even heavily strained trekking bikes can be extended with just a few steps with the suitable handlebar riser for 1 1/8". A long service life and a relatively low weight of only 190g make this innovation, made of aluminium, irreplaceable. In the production of this product, which also serves as an additional extension for the bicycle handlebar, aluminium 6061 was forged in three dimensions (3D forged). The fork steerer tube of the bike can thus be extended by up to 67mm. The set contains 5 spacers for height adjustment. In addition, a headset star nut (1x 8 mm; 4x 5 mm) with the corresponding bolt and cap is included. With the "Heads-Up DLX", available in black and silver, the bike can be easily and reliably adapted to individual needs.

Basic Data

Supplier Article Number:	MJ-SH-03
EAN	4250311358451
MSRP:	€29.95
SB-Article	Yes
Fedas-Code	160210
Bidex-Code	205090
DST-Code	2B05
Brand/Supplier	CONTEC
Unit of measure:	PIECE
Weight	0.194 kg

Technical Data

Main colour	black
Variant	Accessories
