

CONTEC Steering Tube Extension "Heads-Up DLX"

silver

RRP: €29.95

Cost-effective & efficientTuning parts for bikes ensure better riding characteristics and comfort - for example the CONTEC "Heads-Up DLX" fork shaft extensions. This handlebar extension is ideal for MTBs in particular and is suitable for Forks with aluminum or steel steerer tubes. However, even heavy-duty trekking bikes can be extended with the handlebar riser suitable for 1 1/8" in just a few handles / grips. A long service life and a relatively low weight of just 180 g make this aluminum innovation indispensable. Aluminum 6061 was three-dimensionally forged (3D forged) in the manufacture of this product, which also serves as an additional extension for the bicycle handlebars.The steerer tube of the bike can thus be extended by up to 67 mm. The Set includes 5 Spacers for height adjustment. In addition, a headset star (1x 8 mm; 4x 5 mm) with the corresponding Screw and Cap is included. With the "Heads-Up DLX", available in the paints black and silver, the bike can be easily and reliably adjusted to individual requirements.

Basic Data

Supplier Article Number:	MJ-SH-03
EAN	4250311358468
MSRP:	€29.95
SB-Article	Yes
Fedas-Code	160210
Bidex-Code	205090
DST-Code	2B05
Brand/Supplier	CONTEC
Unit of measure:	PIECE
Weight	0.2 kg

Technical Data

Main colour	silver
Variant	Accessories
