

CONTEC Brake Lever "BL-MT30"

right

Price: €6.99

Excellent dosage & sporty look Thanks to their ease of maintenance and good braking performance, V-brakes are preferred by many cyclists. In addition to optimum brake tuning, the quality of the brake lever also plays a role in ensuring good brake function. The CONTEC brake lever "BL-MT30" is designed for use with V-brakes. The aluminium brake lever in matte black and silver weighs 180 g and offers good grip in any situation due to its 3-finger design. The design of the "BL-MT30" also enables the mounting of a Rapidfire shifter. The "BL-MT30" is made of high-quality aluminium and can withstand the rigours of the day. The practical barrel adjuster allows the quick correction of the brake cable tension. In addition, the distance of the lever to the handlebar can be adjusted as desired. The CONTEC brake lever "BL-MT30" is ideal for bicycles with V-brakes. It is available either for right-hand or left-hand mounting. The high-quality, practical design and the individual adjustment options meet even the highest demands.
