

CONTEC Brake Lever "BL-CT10"

right

RRP: €13.95

Sporty design & high comfortV-brakes are easy to maintain, easy to modulate and offer excellent braking performance. This is why they are very popular with many cyclists and are used on many types of bikes. In addition to optimum brake tuning, the quality of the brake lever is also decisive for braking performance and comfort in this braking system.The CONTEC brake lever "BL-CT10" is specially designed for use with V-brakes and offers improved comfort. The aluminium brake lever in matte black and silver weighs just 102 g and is particularly grippy and haptic thanks to its 4-finger design and its Kraton rubber inserts.The design of the "BL-CT10" also enables the mounting of a Rapidfire shifter. Thanks to its high-quality and stable aluminium finish, the "BL-CT10" can also handle a high degree of stress. Good ergonomics is achieved with the easy adjustment of the cable tension and the distance between the lever and the handlebar.The CONTEC brake lever "BL-CT10" is ideal for those who want more comfort. It is available either for right-hand or left-hand mounting. High-quality workmanship, sensible adjustment options and the sporty and elegant design make this brake lever particularly suitable for touring and city bikes.
