

CONTEC Bike Computer "CBC-464"

coolgrey / black

Price: €10.99

All around informed due to 8 functions If you like to be informed about your bike ride clearly and conveniently, this bicycle computer by CONTEC is the right one for you. The "CBC-464" boasts very simple operation and a large backlit display. It can be mounted without tools and displays all the information about the speed, distance and time you need. You benefit from the fact that this bike computer is an all-rounder. It has 8 functions: The "CBC-464" shows comprehensive information on speed, the daily and total kilometres, as well as the daily and total riding time. It has an automatic start/stop function. Additional functions include the clock, a power-down mode and the night-light display. This bike computer comes with a CBC unit, a twist-click handlebar mount with cable and sensor, a spoke magnet, mounting material, a CR2032-3V lithium cell and instructions. In addition to the practical display lighting, quickly being able to set up all basic data with this bike computer has great advantages. For those who like a general overview and want to be well informed on their bike ride, this computer by CONTEC is the right choice.
