

# CONTEC Saddle "Volare City EL"

dimensions (LxW ) 245 x 205mm

RRP €32.95

All-round comfort with 3 zonesThe "Volare City EL" from CONTEC offers excellent comfort in all seating positions. Thanks to its chromium-molybdenum (CrMo) frame, this saddle weighs just 470g and is nevertheless robust and ready to carry weight. But the highlight is its "3Zone comfortPlus" system: It is divided into a dense padded zone, a soft comfort zone and a flat sports zone. While the padded zone in the rear of the saddle is intended for upright, fatigue-free seating, the soft comfort zone is suitable for relieving the buttock if necessary. The flat sports zone in the front saddle area allows for a dynamic, more stretched position on the bicycle. So every rider finds the right, comfortable position for themselves. By the way, the padding of the "Volare City EL" consists of permanently elastic cold foam. This offers the advantage of a low weight. Moreover, it hardly stores heat, so that the saddle quickly cools down again even after intense sunlight and provides for a pleasant feeling. In addition, this saddle is equipped with elastomer damping. This reduces the pressure on the buttocks and thus increases comfort. Furthermore, this model is a unisex saddle, with which both men and women can ride comfortably. So if you are looking for a saddle for various applications, the "Volare City EL" from CONTEC is the right choice.
